

[Bird Island](#) is a stunning urban renewal project that is currently being developed in [Kuala Lumpur](#), Malaysia. Designed by [Graft Lab](#) architects for the [YTL Green Home Competition](#), the project comprises a [zero energy](#) home made of sustainably-sourced silicone glass fabric. Its lightness and flexibility will allow it to sway organically with the breeze just like a treetop, and slots in the fabric will give visitors a unique peek into the sky as the wind ebbs and flows.
